Wisconsin Healthcare System

This website portal serves as the interface to the Medicaid Management Information System (MMIS) for the state of Wisconsin. Through this site, benefit recipients, providers, partners, and trading partners can access the most current health care information contained within the Wisconsin Medicaid and Badger Care systems. The site also provides the means for providers and partners to electronically and securely submit, manage, and maintain health records for patients under their care in compliance with the Health Insurance Portability and Accountability Act (HIPAA).

Partners

- Collecting and Reporting Data
- County / Tribal / Local Partners
- Funding Information
- Provider Information

Trading Partners

- Trading Partner Profile
- PES
- Companion Documents

What's New?

 Certified providers can now improve efficiency while reducing overhead and paperwork by using real time applications available on the new Wisconsin interChange Portal. Submission and tracking of claims, transmission and follow-up of Prior Authorization (PA) submittals, On-demand access to Remittance information, Account maintenance, 835 partner designation, and instant access to the most current BadgerCare Plus information are all now available. Providers can also designate clerks and assign other roles for their accounts to spread the administrative load. This allows them to concentrate their efforts on the most important aspect of their practice, providing quality patient care.
